

Anthony is Outstanding!

The 18th Annual Simon Institute Symposium, Cleaning Industry Awards, in Park City, Utah honored cleaning workers.

Our dear friend, the late Mr. John Walker, could be heard saying...

Anthony receiving the Outstanding Cleaning Worker Medal!

For John and so many of the friends at Symposium, the Janitor, the person, is the reason why we meet to benchmark best practices and therefore improve the working conditions and lives of the 2.5 million custodial workers in the United States. The highlight of the Symposium is the honoring of the Outstanding Cleaning Workers.

Guido and I nominated Anthony for this prestigious award because he continuously demonstrates the willingness to help others and improve at his job. Certified in three of the four specialists, the team cleaning method for Anthony is all about his TEAM! While we were in Utah, Anthony said how he was missing his teammates and was looking forward to getting back to work.

We are so proud of Anthony and very grateful to know him and work together! Great job Anthony!

National Disability Employment Awareness Month (NDEAM)

"The Right Talent, Right Now"

Los Angeles Habilitation House is proud to support National Disability Employment Awareness Month (NDEAM). Held each October, NDEAM aims to educate about disability employment issues and celebrate the many and varied contributions of America's workers with disabilities. NDEAM is led by the U.S. Department of Labor's Office of Disability Employment Policy, but its true spirit lies in the many observances held at the grassroots level across the nation every year. Learn how you can support NDEAM by visiting the ODEP website: www.dol.gov/NDEAM.

October is National Disability Employment Awareness Month
